## BROUGHT INTO COURT.

### The Alleged Incendiary of the Newhall House on Trial.

A General Outline of the Evidence to be Produced—The Trial to Probably be Concluded in a Week.

MILWAUKEE, WIS., April 11.—Yesterday two months ago the Newhall House burned to the ground, one hundred people losing their lives, and yesterday the trial of George Scheller, charged with setting the hotel on fire, began in the Municipal Court, Judge Mallory presiding. Scheller, the owner of the hotel bar, and chief clerk of the hotel for eight years past, was arrested a few days after the fire on the grave charge for which he is held, and in the course of time was regularly indicted by the grand jury. The former high standing of the accused, who came to this city a dozen years ago from Detroit, where he is well connected, has made unusually sensational the awful crime laid at Scheller's door. He has considerable property and a host of friends, and will be ably defended. The general opinion is that he will not be found guilty. Over one hundred witnesses have been subpoenaed, and the trial will probably last a week or longer. District Attorney Clark appeared for the prosecution, assisted by P. J. Somers, when the case was called.

The defense is conducted by Jeff C. McKenny and W. H. Elbitts, well-known members of the local bar. An immense crowd was present. Scheller, his wife, sister-in-law, and attorneys were in the room when the case was called. Scheller looks remarkably well, and his confinement has bleached and fattened him wonderfully. At 11 o'clock Scheller, in charge of a Deputy Sheriff, appeared in court, seeming very cheerful. He said that he felt confident of acquittal. When arraigned he pleaded not guilty, and the call of jurors was commenced. A special venire was issued. The outline of the prosecution is as follows: To establish a motive for the crime, they will attempt to prove that Scheller's business affairs had become so much involved and his finances had reached so low an ebb, through a falling off of custom in the saloon and billiard room, as to bring him face to face with ruin. They will also try to show that his stock and billiard room fixtures were insured for much more than their actual value. This money getting, they will be assisted as the motive. To fasten the guilt of the charge of arson upon him they expect to prove clearly that, instead of having closed the saloon at 1:30 on the morning of the fire, and gone home, as he claimed, he loitered in the vicinity of the hotel until 3:30 o'clock, when he left a couple of friends on Broadway and started off in the direction of the hotel, which flashed into flames half an hour later. An effort will be made to disprove the statement that Scheller was in bed when the fire broke out, by testimony to the fact that Mrs. Scheller searched for her husband during the progress of the conflagration, and expressed fears for his safety, saying that he had not been at home at all during the entire night. It is hinted that some new and quite sensational testimony will be introduced by the prosecution, testimony calculated to prove beyond any question that Scheller was in the saloon only a very few minutes before the fire, or, rather, that some one was in the saloon at the time indicated, and that some one must have seen Scheller, as he always carried a key that would unlock the saloon door. The attorneys for the defense seemed to have outlined no particular course to be pursued during the trial. They have a few witnesses of their own, to be used mainly in rebuttal, but will rely upon a failure of the prosecution to directly connect Scheller with the incendiaryism for an acquittal. They know as little about the nature of the testimony to be introduced as the general public, and are fully as much at sea as the rest of the community.

Dr. Marshall's Hearing Postponed. PITTSBURGH, PA., April 11.—The hearing of Dr. Marshall, on a charge of attempting to blackmail Mary Anderson, has been postponed until the 19th inst. This was done in order to have Dr. Hamilton Griffin present with all the papers in the affair. The United States officers think they have a very strong case.

Lynchers Hunting Him. LEAVENWORTH, KAN., April 11.—Two lynching parties have been scouring the woods all night for an unknown mulatto boy, aged about eighteen years, who attempted to outrage Sarah Porter, aged nine, yesterday afternoon.

## THE DYNAMITE SCARE.

### The Reason Why the Explosive Bill Was so Hastily Passed.

Uneasiness in Canada—A Great Strike of Dock Laborers at Marseilles—The New Female Agitator.

LONDON, April 11.—The Times to-day says there was a practical reason for the haste in which the bill in regard to the explosives was passed through Parliament yesterday, and explains by stating that some members of the dynamite party are believed to be on steamers now coming from America. A royal message giving assent to the bill was read in Parliament this morning.

DUBLIN, April 11.—The police have just come into possession of information that a man has arrived in Dublin who is supposed to be an emissary of the dynamite party, and whose mission is the destruction of property. All the hotels are being watched with the hope of arresting him. The Coldstream Guards have been placed in the building adjacent to the Green-street Court-house, where the trials of the Phoenix Park assassins are to take place.

OTTAWA, April 10.—Notwithstanding the positive assurance of Superintendent Sherwood, of the Dominion police, that the reported explosion in Eastern Block was a canard, Detective Hodgins and four Toronto policemen, who had been brought here to-day, inspected the underground passage of the Parliament buildings, and have been granted permits to enter not only that building but Rideau Hall at all hours, day and night. Although the fact is not generally known, considerable uneasiness is manifested among the members. The night-watch furnished by the Dominion police has been doubled, and every precaution has been taken to prevent the possibility of evil-disposed persons creating trouble. Detective Hodgins had an interview with Colonel McDougal in reference to some suspicious circumstances which took place at Rideau Hall recently. It is said the return of Princess Louise will be delayed on this account.

MARSEILLES, April 11.—Seven thousand dock laborers struck work here yesterday. Up to 2 o'clock this afternoon the strikers had committed no unlawful acts. The authorities have nevertheless taken measures for a prompt suppression of disorders. The streets frequented by the men are being patrolled by mounted gen d'armes.

PARIS, April 11.—The temporary cessation of political excitement, while it has partially reassured the bourgeois, does not silence Mme. Paul Mincke, and does not please M. Henri Rochefort. The Citizeness is still printed at Marseilles, and, although there have been no riots, she blithely announces that the social revolution is at hand. She accounts for the going by of the day set for the last emeute without any disturbance by saying that there was no visible result to be expected from a rising at that time, except a massacre of Communists, her meaning being evidently that the Revolutionists were not quite ready to precipitate an outbreak. M. Rochefort, in the Intransigent, boldly compares M. Jules Ferry to M. Gambetta, and accuses him of seeking to plot for the Presidency of the Republic. He declares that the journey to Arachon was full of meaning, and that M. Ferry is now feeling the pulse of the provinces. It is evident, therefore, that M. Rochefort will hunt down the new Cabinet with the same reckless hatred which impelled him to stab each member of the Gambetta Ministry, and, unfortunately for the hopes of those who seek to establish a stable government in France, this propaganda succeeds. The unscrupulous writer may be despised and discredited, but the circulation of his paper is tremendous, especially among the working classes. Five other daily organs preach extreme doctrines of collectivism and revolution.

Hopes That the Star Route Trial Will End by June. WASHINGTON, April 11.—The defense will probably get all their testimony in in the Star Route trial next week. A week or two will then be consumed by evidence in rebuttal, so that the arguments will be begun, it is now believed, by May 1, and a verdict reached during the latter part of that month. Miner, who occupied the stand to-day, kept up a vigorous argument with Merrick, who cross-examined him, and denied, at every possible opportunity, Rerdell's stories and the charges of conspiracy or fraud.

Colonel Bliss, of Government counsel in the Star Route case, says the report is not true that Merrick and Rerdell will withdraw from the present trial before it is completed.

Terrible Fire. WESTMINSTER, MD., April 11.—The most disastrous fire ever known here occurred yesterday morning. The flames originated in Jacob Thompson's livery stable, in which Bob Thompson and Aaron Shaeffer, employees, were burned to death, and also thirty houses. The Lutheran church and sixteen dwellings and stores burned. The fire cleared away a whole square, from Bond to Carroll, on Main street, and up Carroll. Loss, \$70,000.

## ALMS-HOUSE ATROCITIES.

### Another Awful Chapter in the Tewksbury Terror.

Boston, April 11.—Governor Butler was present at the Tewksbury Alms-house investigation yesterday. Joseph A. Chase testified that he had worked for Miss Manning, and with her knowledge had taken bodies to the Harvard Medical School by order of the Marshal.

The Governor then introduced the sermon by a Mr. Sanborn, a minister of Lawrence, in which it was stated that Spaulding was one of the Trustees of the Alms-house; had boasted that while no emolument was attached to the Trusteeship, he could make it pay. The Governor intimated that this was done by turning over contracts to outside parties with whom Spaulding divided the profits. The Governor then offered a printed testimonial to the character of Sanborn, which after some discussion, was admitted.

John H. Chase said that since his first testimony he had gone to Tewksbury with a detective and unearthed a coffin supposed to contain the body of Joseph Clark. The body had previously been sold, and the coffin, which was empty, brought to Boston. There were other coffins in the same condition.

Two poor women had offered money to witness, to put up a slab over their mother's grave which he refused, but Marsh said he ought to have taken it.

The body was afterwards sent away. In another case, a casket supplied by some ladies to put a body into had been kept and sold by Marsh, a wooden case taking its place.

Frank Baker, formerly in charge of the insane building, said the beds were in a filthy condition in the male wards. He had charge of the bathing of the male patients in a tank 10 by 15 feet and 1 foot deep. As many as eighty-four bathed in the same water, which was rarely changed. The patients would object to going in, and be put in by force.

The Governor attempted to have the testimony of what an insane female inmate had told witness introduced, but, after a warm discussion, it was suppressed.

Mark Heathcote, a policeman who took a foundling to the Alms-house, saw a nurse filling its mouth with soap.

Dr. Dean, a graduate of Harvard Medical School, testified that when he was a student perhaps fifty bodies were used during the winter term.

## THE DANDY DEFAULTER.

Capt. Howgate, the Defaulting Signal Officer, Reported to Have Appeared in Washington.

WASHINGTON, April 11.—The Critic publishes a sensational rumor relating to Howgate. It has been impossible to procure anything further than the one story, and its truth is doubted, but here it is: "Captain Howgate, the defaulting signal officer, is now in Washington. At 2 o'clock this afternoon he was seen to alight from a coupe and hurriedly enter a residence in the northwestern portion of the city. The hack was the property of a private citizen, and one of Howgate's well-known friends. He remained about twenty minutes, and was then driven east on P street. He was seen by a member of the Signal Service who served under him and who is well acquainted with him. The latter attempted to speak to Howgate, but was frustrated by the gentleman who accompanied him. The one-horse vehicle was driven by an elderly Irishman in full livery. The party who accompanied Howgate wore a full beard, a silk hat, and was beyond the meridian of life in age. The party who recognized Howgate did so from his peculiar features about the eyes and mouth. The gentleman who recognized Howgate remarked to the Critic that the fact that he sprang quickly into the coupe when the word 'Howgate' was uttered is prima facie evidence that his convictions of true recognition were correct. The informant also stated that he felt positive in his mind that he knew the gentleman who accompanied Howgate, but that he is too prominently known here to be named unless his eyesight was confirmed more fully; that he was one of the defaulter's heaviest creditors.

Dynamite Fiend in Washington. WASHINGTON, April 11.—British Minister West was to-day asked as to the truthfulness of the story which was in circulation, that Zell Hoover, of this city, had reported to him a plot to blow up the legation with dynamite, and that Hoover had been paid \$500. Mr. West stated that all the truth that there was in the story was that Hoover did call upon him and direct his attention to a certain matter, but it was not a plot to blow up the legation with dynamite, or anything of the kind. He investigated the matter and found it to be fallacious. He did not pay Hoover any money, but merely heard what he had to say, investigated it, and found it to be untrue.

Arrival of Gresham. WASHINGTON, April 11.—Postmaster General Gresham arrived last evening, and was met at the depot by a number of prominent gentlemen, among whom was a committee from the Indiana Republican Club. He was driven to the residence of the Hon. John W. Foster, Minister to Spain, where he will remain several days, and where he to-day received a number of friends.

## THE FINANCIAL PROBLEM.

### The Foundation Upon Which National Banks Exist to be Knocked Out by the End of Next Year.

WASHINGTON, April 11.—A statement of the United States bonds held by the Treasurer to secure National Bank circulation, just published here, shows that nearly all the three per cents. recently issued are held by banks for that purpose, and that of the \$357,000,000 of bonds held for this purpose, about \$200,000,000 are three per cents. This is somewhat interesting in itself, but becomes much more so when it is considered that these three per cent. bonds are the next to be redeemed after the present three-and-a-halfs (extended five and sixes) are out of the way. These three-and-a-half per cent. bonds will not last longer than about the end of the present fiscal year, and then comes the attack on the three per cents.

At the rate the bonds have been called in during Senator Folger's term these would not last two years, and by the end of 1884 one-half the National Banks would find their financial foundation gone. There will be nothing left with which they may continue to furnish security for their circulation save the four and four-and-a-half per cent. bonds. When it is considered that the former are at a premium of 20 per cent. and the latter of 14 per cent., it will be seen that there will be great hesitancy on the part of many to invest in them for circulation securities. How rapidly these remaining three per cents. will be paid off, since last winter's reduction in the revenue can not of course be told, but they must soon begin to melt away. When they begin to go the four and four-and-a-half per cents. will probably go higher, and when your national banker finds that for every \$4 he invests in bonds he can only issue three in currency, and that for every \$5 so invested he will only get four back when the bonds are redeemed, there seems grave doubt as to whether he will make the investment. And if he does not, and his bank circulation is withdrawn, what is to become of the circulating medium of the country?

## CIGARMAKERS' DEMAND.

Since the Reduction of Tax on Cigars is \$3 per 1,000, They Want the Benefit of One-Third the Reduction.

CINCINNATI, April 11.—Cigarmakers' Unions Nos. 4 and 30 of this city are holding joint meetings daily, the object being to secure an advance on the present prices paid for making cigars. The average wages now paid is \$6 to \$7 per 1,000 and workmen are enabled to earn \$8 to \$12 per week. There are about 2,000 cigarmakers in this city, 1,600 of whom belong to either one or the other of the above named unions. The refusal of the manufacturers to grant the increase will result in a strike, and over 1,000 men and women will be out of employment. A few dealers have signed the contract, among whom was the firm of Reis Brothers, who employ forty or fifty men. There exists a determination among the workmen to remain out until the advance asked for is granted. It is reported that a large number of the cigarmakers of this city have decided to leave for the East, where they say prices are higher than here. Meetings will be held every day until the strike is over. The employees of the firms which have acceded to the demands will return to work at once.

## Jealousy and Crime.

New York, April 11.—Mrs. Rebecca Bruggy, aged thirty-five, was shot in the right breast by her husband about midnight last night at their residence, No. 343 West Forty-third street. The woman was removed to the hospital, where it was found that her injury was probably fatal. Her ante-mortem statement has since been taken, and she is said to be dying. Franklin M. Bruggy, her husband, was arrested. Jealousy was the cause.

## An Arkansas Tornado.

LITTLE ROCK, ARK., April 11.—Later reports of the recent tornado indicate great loss of life. The German settlement in Garland county was devastated, and three persons killed. Montgomery county suffered severely, and two citizens lost their lives, being crushed by falling timber. The casualties will probably foot up ten lives, and the loss of property fifty thousand dollars.

## Will Depart This Life in May.

BATON ROUGE, LA., April 11.—The Governor has ordered the execution of Bazis Dugay for the murder of Geo. Lukesley, sentenced to be hanged on January 26, 1883. He will be executed on the 11th of next May. Also John Austin, on the same date, for the murder of Isaac Brown, who was sentenced on the 26th of January, 1883. They will be hanged at Franklin.

## Coal Mining Troubles.

CLEVELAND, O., April 11.—At a meeting of the coal operatives of the Massillon district, it was decided that a general lockout now is unavoidable. This will throw between 5,000 and 6,000 miners out. Serious trouble is anticipated.

CEDWORTH.

## THE STAR ROUTE TRIAL.

An Unusually Dull but Very Expensive Entertainment.

WASHINGTON, April 10.—It is said, upon the best of authority, that the Attorney General stated the other day to a friend that the Government has spent \$625,000 in the Star Route cases, and that the best he can hope for now is a mis-trial. Brewster has damned Merrick and Ker for their action in finding material for the Kellogg indictment, and the cursings they are receiving from the press of the country now, and the fact of the ultimate failure in these trials, make them anxious to get out of the cases at once.

The leading feature of the trial yesterday was the announcement made from the jury box by Juror Hughes. It having been printed in a Philadelphia paper that Hughes has a cancer on his neck, which will likely take his life before the close of the trial, and that the defendants were desirous of prolonging the case until he would die, he arose and denounced the whole statement.

John R. Miner, one of the defendants, an Ohio man, by the way, was on the stand yesterday. He contradicted Rendell, and denied all charges of conspiracies and fraud. He is a Brady-Dorsey style of witness.

Ex-Senator Kellogg said to a reporter, with an emphasis that meant sincerity: "I don't know or care what may be the result of the pending trials, but I intend to institute a suit for perjury against John A. Walsh, and I will land him in the penitentiary. I have already consulted attorneys, and they say I have a clear case."

The colored people held a mass meeting last night at Mount Pisgah Church, and denounced the practice of government bureau officers compelling the colored employes to do their private work in addition to their public duties.

Judge Mellett, of Newcastle, Ind., is prominently spoken of as Judge Gresham's successor. He is a lawyer of eminent ability, and would make an excellent United States Judge. Judge Gresham or Senator Harrison will arbitrate the appointment.

Secretary Folger was at his desk in the Treasury Department yesterday. He has nearly recovered from his recent attack of illness, and wears a green shade over the left eye. He remarked that his appetite was good, and he thought the effects of his sickness would soon disappear.

#### Strike.

The cigar makers of Maysville, which involves the operatives in all the shops in the city, began a strike this morning. They ask from the manufacturers an advance in the price of their labor of one dollar a thousand on all kinds of cigars. The manufacturers have not yet signified what they intend to do.

A strike among the cigar makers at Cincinnati began, on the 10th inst., which is expected will be general throughout the country. Some fifteen hundred persons or about three-fourths of all the cigar makers of Cincinnati are involved in the strike. They had given notice to their employers that the strike would be inaugurated May 1st but as preparations were making by the manufacturers to largely increase their stocks the strike was resolved upon at once.

An audience fair in size greeted Miss Julia Hunt, in the "Pearl of Savoy," at the Opera House last night. Her impersonation of the leading character was very gracefully and artistically rendered. The support was excellent throughout and much above the average of the companies that have visited Maysville this season. The part of Chonchon by Miss Tucker is especially worthy of notice. The charming drama of Florinel will be produced this evening and in which the whole company will appear. There should be a large audience in attendance.

The case of the Commonwealth vs. George Cooper was called in the Circuit Court Tuesday afternoon, and the process of empanelling a jury began. The jury was completed Wednesday morning, and the trial of the case begun. It will be remembered that Cooper is the party who, last fall, during the fair at Germantown, shot and killed George W. B. Insko. The shooting was done without any apparent cause or provocation. The first witness to testify in the case was Miss Lucretia Mingua, the young lady who was with Insko when the shooting was done. Below we give the substance of the testimony of the several witnesses who testified:

Miss Lucretia Mingua:

Was at the fair last fall, Thursday and Friday and Saturday, with George W. B. Insko. Met him about 10 o'clock and was with him most of the time till 4. Met George Cooper and his wife while I was with Insko. He asked Cooper's wife if she was going to promenade with Neville. She wanted to know what he meant. Insko said I mean are you going to promenade with Neville? Cooper asked what he meant by that. Insko replied I mean just what I said. That was all the conversation. Was with Insko most of the time after that. Came there Saturday morning about nine o'clock and was with Insko nearly all day. Met and passed Cooper but there was no conversation. Was with Insko when he was shot. Did not see who shot him. We were going around the promenade from the pike. We turned and were just starting down the steps. Had seen Cooper near about the middle of the steps. Insko had hold of my arm. As we started to go down some one shot and Insko fell. The amphitheatre is a circle and around this is the promenade. The gallery is above this. Steps led from the promenade to the gallery. Met Insko soon after I got there—took lunch with him. He left me for a short time just after dinner. We met Cooper and his wife in the afternoon on the promenade. I knew Cooper's wife and also Neville slightly. I did not hear Insko say to Cooper, "d-n you, if you want anything, I'm ready to give it to you." Did not hear any other conversation that day. Did not hear Insko say, "d-n you, I intend to kill you." Did not see Cooper's wife shove Insko away nor hear her say, "If you are a gentleman you will leave my husband alone." Did not hear him say, "I'm a gentleman but he's a son of a b—h." We were going from the pike towards the steps. Don't remember seeing his wife. There was much noise as we turned to go down steps. Don't know Mrs. Cooper's father. Didn't hear Insko threaten him. Shots were very close together. Didn't know whether Insko was dying or not. Passed Neville several times. Didn't hear any angry altercation between Insko and Cooper at any time. Insko had previously known Cooper's wife, saw them together at Minerva before she was married.

Willis Insko: Had been living in Indiana and on my way home stopped at fair Thursday and stayed until Saturday. Met my brother Thursday. Did not know Cooper. My brother was with Miss Mingua. Between three and four o'clock Saturday I was on steps waiting for George. Saw him coming with two ladies. Miss Mingua was on his left. They started down the steps. Saw Cooper on the promenade. He started and went round behind them and shot my brother. Cooper was five feet from the post at the left and seven feet from my brother and behind him. I saw the pistol in his hands and started toward him and hit him just as the second shot was fired. The second shot struck George in the hand. It was pointed at his breast.

Cross examined:

George was 20 years old. Have seven brothers, all living except one. Two brothers beside George were at the fair. When George was shot, he fell on his back. I was standing half way up the steps, leaning on the railing. Was not there to help him attack Cooper. When I struck Cooper he fell on the steps. Did not strike him again. I got a pistol from him. Don't remember whether or not I tried to use the pistol on him—might have done so if they had let me alone. Some one took it from me.

Cordray Ellis: Was present when Insko was killed. Can't say who killed him. Didn't see who shot as I was ahead of Cooper. Saw scuffling with Cooper after the shooting. Saw the dead body of Insko afterward.

Mike Harmon: The last day of the fair Cooper came to my house and asked for Jno. Harmon's revolver, saying John had told him he could have it. I gave it to him and told him to be careful and not shoot any one. He said, "No, no."

John Harmon: Cooper never asked me for my revolver and I never told him to get it. Wm. Heck: Was at the fair Saturday and saw Cooper and Insko. At the time of the shooting was on the promenade opposite the cottages. Cooper had the pistol out and shot about the time I saw them. Insko fell backwards. Cooper turned around as though he was trying to shoot him in the breast. It was about a foot from Insko's head. When Insko fell his feet hung over the steps. Didn't hear anything said.

Elishe Moran: Was at the fair Saturday. Was going up the steps when I heard a pistol shot and saw Insko fall. The crowd fell back and Cooper came up and shot the second

time. Cooper stood over Insko as if trying to shoot in the breast. Was eight or ten feet away from them. Didn't notice Cooper at all till he was standing over Insko. Heard nothing unusual until the pistol cracked.

Samuel Whisner: Was at the fair Saturday. Was going up the steps and saw pistol stuck out. It was fired just as I saw it. Saw second shot. Insko was lying on the promenade. Wound was near the ear, higher up. Ed Lee: Heard pistol shot and saw a man falling. Saw a man with a pistol and shot the second time. Cooper was standing at Insko's side and over him. Didn't hear a word said by either party.

James W. Perkins: Was at the fair Saturday. Was in the act of leaving when shooting occurred. Saw second shot. Did not see Insko fall.

Scott Owens: Was at the bottom of the steps and saw second shot fired. Saw a man on the promenade and another with a pistol pointed at him. The wound was a little behind and above the ear. Didn't hear any loud talking or quarreling at the time of the shooting.

Ben Wood: Heard pistol shots close together. Insko was on the stile and dying when I saw him. Saw him undressed. Saw no weapons of any kind on him.

Wash Tillet: Was on the promenade and heard some one say, "Where's Insko." He was apparently very drunk. I made no answer but hurried away. Just then the shots were fired. Don't know who fired them. H. K. Adams: Heard two shots and didn't see who fired them. Examined Cooper and afterwards examined Insko. Wound was on the right side above the ear. His death was caused by this wound. I think Cooper had been drinking. He had convulsions when I examined him.

Thomas Moore: Didn't see shooting. I tried to carry Insko down to the stile. I think he was dead when we got there. Saw no weapons on his person.

By lack of open air exercise, and the want of sufficient care in the matter of diet, the whole physical mechanism often becomes impaired during the winter. #### IN MEMORIAM.

Died, at his home in Mason county, Ky., April the 2nd, 1883, Elder Charles Osborne, in the 75th year of his age. He had been declining in health for some months past, and although several skillful physicians had been employed his disease baffled their best efforts to prolong his life. His health slowly but gradually declined until his spirit left its earthly tabernacle, to be clothed in upon with the writer of these lines that "the Lord was letting him down gently." Death had no terror to him. He had an unshaken faith in the atonement of the Savior and his promises. His faith and hope in Jesus as "the resurrection and the life" was an anchor to his soul both sure and steadfast, and gave him great support in his afflictions. From a long and intimate acquaintance with him we can truly say that a good man and useful citizen has been taken from us. Sorrow not, then, you who mourn, as those who have no hope. If we believe that Jesus died and rose again, even so them that sleep in Jesus will God bring with him. Elder Osborne was a loving and devoted husband and father.

He leaves a wife and family of five children to mourn his loss, viz: Two sons and three daughters; also a number of grandchildren. His children who survive him, with their husbands and wives, are members of the Church of Christ; also several of his grandchildren. The wife of brother Jno. A. Brooks, of Missouri, who died shortly after her marriage, also another daughter who died in early womanhood, were members of the Church of Christ. Through his training and example and the pious devotion of his Christian companion, their children became members of the church in early life. If the teaching example of the beloved parents, in their love and obedience to the Savior, shall be followed by the sorrowing ones, a while there will be a joyous re-union of parents and children and all the "loved ones gone before," in the heavenly home of promise where there will be fullness of joy forever. "Blessed are the dead who die in the Lord from henceforth." Yes, saith the spirit, that they may rest from their labors; and their works do follow them."

We cannot close this sketch of the life of Brother Osborne, without at least an allusion to the great and important work of his life. On the 17th of July, 1835 (now almost forty-eight years) the Church of Christ, at Beasley Creek, Mason County, Ky., ordained Brother Osborne and myself Elders or Overseers of the church. We have held a continuous relation to the church as such without any addition to the eldership up to the time of his death. At the time we were chosen to preside over the church there were about one hundred members. Of that number, since Brother Osborne's death, only six are now living. In the interim hundreds have been added to the church, yet from deaths, removals and other causes the number is not any larger. But the church still lives, and, as brother Osborne said before he died, he was hopeful of its perpetuation and prosperity. The life work of Brother Osborne, as Elder, will be written in connection with the history of the church. A large concourse of people attended his funeral on the 4th inst. Very appropriate services were held by Elders, W. W. Hall and Henry Taylor.

### A Dead Millionaire Whose Liasons Have Been Legion.

SAN FRANCISCO, April 11.—There is a probability of a lively contest over the estate of Thomas Blythe, the millionaire, who died suddenly last week after taking a bath. Blythe was an Englishman who came into possession of valuable property on Market street years ago, and whose wealth at the time of his death was estimated to be \$4,000,000. He was fond of women, and several years ago a dashing young woman, named Nellie Firmin, with whom he had been living, brought suit against him, claiming to be his wife. The trial caused a local sensation, on account of Blythe's wealth and eccentricities, but he easily proved that he had never been married to her. For the last five years Blythe has been living with a woman who went by the name of Allie Dickinson. She is a beautiful brunette, very stylish, but Blythe never called her his wife. He simply introduced her to his friends as "Allie." He died in her arms, and she attended the funeral. Now she comes in with a claim that she was married to him, and demanding half of his property. What makes the case more tangled is that another woman, named Firmin, also will put in a claim for a share of the estate. The only real heir is a young girl now in England, the sole issue of the millionaire's marriage years ago. Besides the real estate in this city, deceased had large interests in Sonora and Southern California which are valuable.

## BURIED ALIVE.

### Seventeen Men Crushed Under a Falling Building.

ROCHESTER, N. Y., April 11.—Yesterday morning a large building at the north-west corner of Church and State streets fell with a crash. The side wall facing Church street had been erected this winter. It is supposed the mortar was frozen, and that the warm weather of yesterday loosened the bricks and caused the fall. There were seventeen men at work in the building. An alarm was sounded, which brought out the firemen and police, who are working hard clearing away the debris. The names of those found in the ruins are R. L. Worden, Wm. Ashford, Frederick Kohler, S. Burr, W. G. Gould, R. L. Brown, Ransom Porter, Anthony Dankelspiel, and Matthew Peard. The latter is dead, and two of the others are fatally injured. The owner of the building was on the roof at the time it fell, and was severely injured. Those who are in the basement are probably killed.

## Tariff Vexations.

WASHINGTON, April 11.—It begins to look as though an interpreter is needed to handle each and every section of the new tariff law. Doubts exist as to what is meant by most of the terms used relating to time, place, quality, quantity, and the dates upon which laws shall take effect. The several departments are being called upon with painful frequency to render decisions upon every conceivable problem. In passing a tariff law Congress should have adopted a key for it, or made diagrams for each section.

All the men were either killed outright, or buried alive, except Ed. Wicks, who went down 100 feet, and then remained on top of the debris, with his leg broken at the thigh, and one of his ribs fractured. His recovery is doubtful.
